

Policy, Procedure and Forms Transformation Report

Trinity Support Limited | Company number 13605039 | 40 South Park Road, Ilford, England, IG1 1SS

Prepared: 3 June 2026

Executive Summary

The old policy pack was incomplete as an inspection evidence system: it contained outdated child/residential wording, inconsistent document control, missing review triggers, incomplete forms/register links and weak role accountability.

The replacement pack creates a controlled 18+ supported accommodation framework while retaining a clear warning that any 16-17 placement must follow Ofsted supported accommodation requirements and any regulated personal care must be checked against CQC registration duties.

The website now acts as the live portal for searchable policies, printable forms, Word downloads and a compliance dashboard.

Old Policy-by-Policy Findings and Changes

Old document	What was wrong	What changed
1 ADMISSION OF RESIDENTS POLICY V6.docx	No consistent controlled-document footer, version metadata or registered company details. Written around older residential/child-focused wording and not clearly reset for the current 18+ supported accommodation model. No clear distinction between adult supported accommodation, Ofsted supported accommodation for 16-17 placements, and CQC-regulated personal care. Weak inspection evidence trail: the policy did not identify the matching register/form, review trigger and management oversight evidence. Needed adult resident voice, tenancy/support expectations, move-in records and outcome-focused support planning.	Mapped into the new controlled document: Admission and Move-In. Rewritten into role-owned, searchable, printable and annually reviewed portal content. Added purpose, practice standard, procedure, records/evidence, review trigger and escalation sections. Added footer branding, registered address, company number, version, approval date and review date.
10. REPAIRS Maintenance V6.docx	No consistent controlled-document footer, version metadata or registered company details. Written around older residential/child-focused wording and not clearly reset for the current 18+ supported accommodation model. No clear distinction between adult supported accommodation, Ofsted supported accommodation for 16-17 placements, and CQC-regulated personal care. Weak inspection evidence trail: the policy did not identify the matching register/form, review trigger and management oversight evidence. Contained old email/person-specific instructions and needed a role-based maintenance workflow.	Mapped into the new controlled document: Repairs and Maintenance. Rewritten into role-owned, searchable, printable and annually reviewed portal content. Added purpose, practice standard, procedure, records/evidence, review trigger and escalation sections. Added footer branding, registered address, company number, version, approval date and review date.

Old document	What was wrong	What changed
11 FIRE SAFETY POLICY V6.docx	No consistent controlled-document footer, version metadata or registered company details. Written around older residential/child-focused wording and not clearly reset for the current 18+ supported accommodation model. No clear distinction between adult supported accommodation, Ofsted supported accommodation for 16-17 placements, and CQC-regulated personal care. Weak inspection evidence trail: the policy did not identify the matching register/form, review trigger and management oversight evidence. Needed clearer fire drill, alarm test, PEEP, contractor and evidence-record requirements.	Mapped into the new controlled document: Fire Safety. Rewritten into role-owned, searchable, printable and annually reviewed portal content. Added purpose, practice standard, procedure, records/evidence, review trigger and escalation sections. Added footer branding, registered address, company number, version, approval date and review date.
12. RISK ASSEMENT POLICY V6.docx	No consistent controlled-document footer, version metadata or registered company details. Written around older residential/child-focused wording and not clearly reset for the current 18+ supported accommodation model. No clear distinction between adult supported accommodation, Ofsted supported accommodation for 16-17 placements, and CQC-regulated personal care. Weak inspection evidence trail: the policy did not identify the matching register/form, review trigger and management oversight evidence.	Mapped into the new controlled document: Risk Assessment. Rewritten into role-owned, searchable, printable and annually reviewed portal content. Added purpose, practice standard, procedure, records/evidence, review trigger and escalation sections. Added footer branding, registered address, company number, version, approval date and review date.
13. HEALTH AND SAFETY V6.docx	No consistent controlled-document footer, version metadata or registered company details. Written around older residential/child-focused wording and not clearly reset for the current 18+ supported accommodation model. No clear distinction between adult supported accommodation, Ofsted supported accommodation for 16-17 placements, and CQC-regulated personal care. Weak inspection evidence trail: the policy did not identify the matching register/form, review trigger and management oversight evidence.	Mapped into the new controlled document: Admission and Move-In. Rewritten into role-owned, searchable, printable and annually reviewed portal content. Added purpose, practice standard, procedure, records/evidence, review trigger and escalation sections. Added footer branding, registered address, company number, version, approval date and review date.
14. ROOM SEARCHES POLICY V6.docx	No consistent controlled-document footer, version metadata or registered company details. Written around older residential/child-focused wording and not clearly reset for the current 18+ supported accommodation model. No clear distinction between adult supported accommodation, Ofsted supported accommodation for 16-17 placements, and CQC-regulated personal care. Weak inspection evidence trail: the policy did not identify the matching register/form, review trigger and management oversight evidence.	Mapped into the new controlled document: Room Access and Searches. Rewritten into role-owned, searchable, printable and annually reviewed portal content. Added purpose, practice standard, procedure, records/evidence, review trigger and escalation sections. Added footer branding, registered address, company number, version, approval date and review date.
15. THE ARRANGEMENTS TO MEET GENDER NEEDS POLICY V6.docx	No consistent controlled-document footer, version metadata or registered company details. Written around older residential/child-focused wording and not clearly reset for the current 18+ supported accommodation model. No clear distinction between adult supported accommodation, Ofsted supported accommodation for 16-17 placements, and CQC-regulated personal care. Weak inspection evidence trail: the policy did not identify the matching register/form, review trigger and management oversight evidence.	Mapped into the new controlled document: Gender Identity and Gender Needs. Rewritten into role-owned, searchable, printable and annually reviewed portal content. Added purpose, practice standard, procedure, records/evidence, review trigger and escalation sections. Added footer branding, registered address, company number, version, approval date and review date.

Old document	What was wrong	What changed
16. SUPPORT PRACTICES TOWARDS CHILDREN OF THE OPPOSITE SEX POLICY V6.docx	No consistent controlled-document footer, version metadata or registered company details. Written around older residential/child-focused wording and not clearly reset for the current 18+ supported accommodation model. No clear distinction between adult supported accommodation, Ofsted supported accommodation for 16-17 placements, and CQC-regulated personal care. Weak inspection evidence trail: the policy did not identify the matching register/form, review trigger and management oversight evidence.	Mapped into the new controlled document: Daily Support. Rewritten into role-owned, searchable, printable and annually reviewed portal content. Added purpose, practice standard, procedure, records/evidence, review trigger and escalation sections. Added footer branding, registered address, company number, version, approval date and review date.
17. SEXUAL ORIENTATION V6.docx	No consistent controlled-document footer, version metadata or registered company details. Written around older residential/child-focused wording and not clearly reset for the current 18+ supported accommodation model. No clear distinction between adult supported accommodation, Ofsted supported accommodation for 16-17 placements, and CQC-regulated personal care. Weak inspection evidence trail: the policy did not identify the matching register/form, review trigger and management oversight evidence.	Mapped into the new controlled document: Sexual Orientation and Relationships. Rewritten into role-owned, searchable, printable and annually reviewed portal content. Added purpose, practice standard, procedure, records/evidence, review trigger and escalation sections. Added footer branding, registered address, company number, version, approval date and review date.
18. STAFFING POLICY V6.docx	No consistent controlled-document footer, version metadata or registered company details. Written around older residential/child-focused wording and not clearly reset for the current 18+ supported accommodation model. No clear distinction between adult supported accommodation, Ofsted supported accommodation for 16-17 placements, and CQC-regulated personal care. Weak inspection evidence trail: the policy did not identify the matching register/form, review trigger and management oversight evidence.	Mapped into the new controlled document: Staffing. Rewritten into role-owned, searchable, printable and annually reviewed portal content. Added purpose, practice standard, procedure, records/evidence, review trigger and escalation sections. Added footer branding, registered address, company number, version, approval date and review date.
19. RECRUITMENT POLICY V6.docx	No consistent controlled-document footer, version metadata or registered company details. Written around older residential/child-focused wording and not clearly reset for the current 18+ supported accommodation model. No clear distinction between adult supported accommodation, Ofsted supported accommodation for 16-17 placements, and CQC-regulated personal care. Weak inspection evidence trail: the policy did not identify the matching register/form, review trigger and management oversight evidence. Needed a clearer safer recruitment checklist, DBS/reference/right-to-work controls and pre-start approval trail.	Mapped into the new controlled document: Safer Recruitment. Rewritten into role-owned, searchable, printable and annually reviewed portal content. Added purpose, practice standard, procedure, records/evidence, review trigger and escalation sections. Added footer branding, registered address, company number, version, approval date and review date.

Old document	What was wrong	What changed
2. DAILY SUPPORT POLICY V6.docx	No consistent controlled-document footer, version metadata or registered company details. Written around older residential/child-focused wording and not clearly reset for the current 18+ supported accommodation model. No clear distinction between adult supported accommodation, Ofsted supported accommodation for 16-17 placements, and CQC-regulated personal care. Weak inspection evidence trail: the policy did not identify the matching register/form, review trigger and management oversight evidence. Needed adult resident voice, tenancy/support expectations, move-in records and outcome-focused support planning.	Mapped into the new controlled document: Daily Support. Rewritten into role-owned, searchable, printable and annually reviewed portal content. Added purpose, practice standard, procedure, records/evidence, review trigger and escalation sections. Added footer branding, registered address, company number, version, approval date and review date.
20. STAFF SUPERVISION V6.docx	No consistent controlled-document footer, version metadata or registered company details. Written around older residential/child-focused wording and not clearly reset for the current 18+ supported accommodation model. No clear distinction between adult supported accommodation, Ofsted supported accommodation for 16-17 placements, and CQC-regulated personal care. Weak inspection evidence trail: the policy did not identify the matching register/form, review trigger and management oversight evidence.	Mapped into the new controlled document: Staff Supervision and Appraisal. Rewritten into role-owned, searchable, printable and annually reviewed portal content. Added purpose, practice standard, procedure, records/evidence, review trigger and escalation sections. Added footer branding, registered address, company number, version, approval date and review date.
21. SPENDING TIME ALONE WITH RESIDENTS V6.docx	No consistent controlled-document footer, version metadata or registered company details. Written around older residential/child-focused wording and not clearly reset for the current 18+ supported accommodation model. No clear distinction between adult supported accommodation, Ofsted supported accommodation for 16-17 placements, and CQC-regulated personal care. Weak inspection evidence trail: the policy did not identify the matching register/form, review trigger and management oversight evidence.	Mapped into the new controlled document: Updated policy portal equivalent. Rewritten into role-owned, searchable, printable and annually reviewed portal content. Added purpose, practice standard, procedure, records/evidence, review trigger and escalation sections. Added footer branding, registered address, company number, version, approval date and review date.
22. EQUAL OPPORTUNITIES POLICY V6.docx	No consistent controlled-document footer, version metadata or registered company details. Written around older residential/child-focused wording and not clearly reset for the current 18+ supported accommodation model. No clear distinction between adult supported accommodation, Ofsted supported accommodation for 16-17 placements, and CQC-regulated personal care. Weak inspection evidence trail: the policy did not identify the matching register/form, review trigger and management oversight evidence.	Mapped into the new controlled document: Equal Opportunities. Rewritten into role-owned, searchable, printable and annually reviewed portal content. Added purpose, practice standard, procedure, records/evidence, review trigger and escalation sections. Added footer branding, registered address, company number, version, approval date and review date.

Old document	What was wrong	What changed
23. ANTI-DICRIMINATORY PRACTICES POLICY V6.docx	No consistent controlled-document footer, version metadata or registered company details. Written around older residential/child-focused wording and not clearly reset for the current 18+ supported accommodation model. No clear distinction between adult supported accommodation, Ofsted supported accommodation for 16-17 placements, and CQC-regulated personal care. Weak inspection evidence trail: the policy did not identify the matching register/form, review trigger and management oversight evidence. Filename and title contained spelling errors that would undermine professional inspection presentation.	Mapped into the new controlled document: Anti-Discriminatory Practice. Rewritten into role-owned, searchable, printable and annually reviewed portal content. Added purpose, practice standard, procedure, records/evidence, review trigger and escalation sections. Added footer branding, registered address, company number, version, approval date and review date.
24. DISABILITY EMPLOYMENT PRACTICE POLICY V6.docx	No consistent controlled-document footer, version metadata or registered company details. Written around older residential/child-focused wording and not clearly reset for the current 18+ supported accommodation model. No clear distinction between adult supported accommodation, Ofsted supported accommodation for 16-17 placements, and CQC-regulated personal care. Weak inspection evidence trail: the policy did not identify the matching register/form, review trigger and management oversight evidence.	Mapped into the new controlled document: Education, Training and Employment. Rewritten into role-owned, searchable, printable and annually reviewed portal content. Added purpose, practice standard, procedure, records/evidence, review trigger and escalation sections. Added footer branding, registered address, company number, version, approval date and review date.
25. THE ARRANGEMENTS FOR RELIGIOUS INSTRUCTION AND OBSERVANCE POLICY V6.docx	No consistent controlled-document footer, version metadata or registered company details. Written around older residential/child-focused wording and not clearly reset for the current 18+ supported accommodation model. No clear distinction between adult supported accommodation, Ofsted supported accommodation for 16-17 placements, and CQC-regulated personal care. Weak inspection evidence trail: the policy did not identify the matching register/form, review trigger and management oversight evidence.	Mapped into the new controlled document: Admission and Move-In. Rewritten into role-owned, searchable, printable and annually reviewed portal content. Added purpose, practice standard, procedure, records/evidence, review trigger and escalation sections. Added footer branding, registered address, company number, version, approval date and review date.
26. DISCIPLINARY AND GRIEVANCE PROCEDURE V6.docx	No consistent controlled-document footer, version metadata or registered company details. Written around older residential/child-focused wording and not clearly reset for the current 18+ supported accommodation model. No clear distinction between adult supported accommodation, Ofsted supported accommodation for 16-17 placements, and CQC-regulated personal care. Weak inspection evidence trail: the policy did not identify the matching register/form, review trigger and management oversight evidence.	Mapped into the new controlled document: Admission and Move-In. Rewritten into role-owned, searchable, printable and annually reviewed portal content. Added purpose, practice standard, procedure, records/evidence, review trigger and escalation sections. Added footer branding, registered address, company number, version, approval date and review date.
27. DEALING WITH VIOLENCE POLICY V6.docx	No consistent controlled-document footer, version metadata or registered company details. Written around older residential/child-focused wording and not clearly reset for the current 18+ supported accommodation model. No clear distinction between adult supported accommodation, Ofsted supported accommodation for 16-17 placements, and CQC-regulated personal care. Weak inspection evidence trail: the policy did not identify the matching register/form, review trigger and management oversight evidence.	Mapped into the new controlled document: Violence, Aggression and Harassment. Rewritten into role-owned, searchable, printable and annually reviewed portal content. Added purpose, practice standard, procedure, records/evidence, review trigger and escalation sections. Added footer branding, registered address, company number, version, approval date and review date.

Old document	What was wrong	What changed
28. WHISTLE BLOWING POLICY V6.docx	No consistent controlled-document footer, version metadata or registered company details. Written around older residential/child-focused wording and not clearly reset for the current 18+ supported accommodation model. No clear distinction between adult supported accommodation, Ofsted supported accommodation for 16-17 placements, and CQC-regulated personal care. Weak inspection evidence trail: the policy did not identify the matching register/form, review trigger and management oversight evidence.	Mapped into the new controlled document: Updated policy portal equivalent. Rewritten into role-owned, searchable, printable and annually reviewed portal content. Added purpose, practice standard, procedure, records/evidence, review trigger and escalation sections. Added footer branding, registered address, company number, version, approval date and review date.
29. REPRESENTATIONS V6.docx	No consistent controlled-document footer, version metadata or registered company details. Written around older residential/child-focused wording and not clearly reset for the current 18+ supported accommodation model. No clear distinction between adult supported accommodation, Ofsted supported accommodation for 16-17 placements, and CQC-regulated personal care. Weak inspection evidence trail: the policy did not identify the matching register/form, review trigger and management oversight evidence.	Mapped into the new controlled document: Representations and Advocacy. Rewritten into role-owned, searchable, printable and annually reviewed portal content. Added purpose, practice standard, procedure, records/evidence, review trigger and escalation sections. Added footer branding, registered address, company number, version, approval date and review date.
3. MANAGEMENT OF BEHAVIOUR POLICY V6.docx	No consistent controlled-document footer, version metadata or registered company details. Written around older residential/child-focused wording and not clearly reset for the current 18+ supported accommodation model. No clear distinction between adult supported accommodation, Ofsted supported accommodation for 16-17 placements, and CQC-regulated personal care. Weak inspection evidence trail: the policy did not identify the matching register/form, review trigger and management oversight evidence.	Mapped into the new controlled document: Positive Behaviour and De-escalation. Rewritten into role-owned, searchable, printable and annually reviewed portal content. Added purpose, practice standard, procedure, records/evidence, review trigger and escalation sections. Added footer branding, registered address, company number, version, approval date and review date.
30. SUBSTANCE MIS V6.docx	No consistent controlled-document footer, version metadata or registered company details. Written around older residential/child-focused wording and not clearly reset for the current 18+ supported accommodation model. No clear distinction between adult supported accommodation, Ofsted supported accommodation for 16-17 placements, and CQC-regulated personal care. Weak inspection evidence trail: the policy did not identify the matching register/form, review trigger and management oversight evidence.	Mapped into the new controlled document: Substance Misuse. Rewritten into role-owned, searchable, printable and annually reviewed portal content. Added purpose, practice standard, procedure, records/evidence, review trigger and escalation sections. Added footer branding, registered address, company number, version, approval date and review date.
31. DRUGS V6.docx	No consistent controlled-document footer, version metadata or registered company details. Written around older residential/child-focused wording and not clearly reset for the current 18+ supported accommodation model. No clear distinction between adult supported accommodation, Ofsted supported accommodation for 16-17 placements, and CQC-regulated personal care. Weak inspection evidence trail: the policy did not identify the matching register/form, review trigger and management oversight evidence.	Mapped into the new controlled document: Drugs and Alcohol. Rewritten into role-owned, searchable, printable and annually reviewed portal content. Added purpose, practice standard, procedure, records/evidence, review trigger and escalation sections. Added footer branding, registered address, company number, version, approval date and review date.

Old document	What was wrong	What changed
32. GIFT GIVING AND RECEIVING POLICY V6.docx	No consistent controlled-document footer, version metadata or registered company details. Written around older residential/child-focused wording and not clearly reset for the current 18+ supported accommodation model. No clear distinction between adult supported accommodation, Ofsted supported accommodation for 16-17 placements, and CQC-regulated personal care. Weak inspection evidence trail: the policy did not identify the matching register/form, review trigger and management oversight evidence. Needed anti-bribery, conflicts, gifts register and financial integrity controls.	Mapped into the new controlled document: Admission and Move-In. Rewritten into role-owned, searchable, printable and annually reviewed portal content. Added purpose, practice standard, procedure, records/evidence, review trigger and escalation sections. Added footer branding, registered address, company number, version, approval date and review date.
33. Restorative Justice Policy V6.docx	No consistent controlled-document footer, version metadata or registered company details. Written around older residential/child-focused wording and not clearly reset for the current 18+ supported accommodation model. No clear distinction between adult supported accommodation, Ofsted supported accommodation for 16-17 placements, and CQC-regulated personal care. Weak inspection evidence trail: the policy did not identify the matching register/form, review trigger and management oversight evidence.	Mapped into the new controlled document: Restorative Practice. Rewritten into role-owned, searchable, printable and annually reviewed portal content. Added purpose, practice standard, procedure, records/evidence, review trigger and escalation sections. Added footer branding, registered address, company number, version, approval date and review date.
34. MISSING POLICY V6.docx	No consistent controlled-document footer, version metadata or registered company details. Written around older residential/child-focused wording and not clearly reset for the current 18+ supported accommodation model. No clear distinction between adult supported accommodation, Ofsted supported accommodation for 16-17 placements, and CQC-regulated personal care. Weak inspection evidence trail: the policy did not identify the matching register/form, review trigger and management oversight evidence. Needed a clearer missing-risk plan, police/local authority notification and return conversation process.	Mapped into the new controlled document: Missing Person and Absence. Rewritten into role-owned, searchable, printable and annually reviewed portal content. Added purpose, practice standard, procedure, records/evidence, review trigger and escalation sections. Added footer branding, registered address, company number, version, approval date and review date.
35 SELF Harm V6.docx	No consistent controlled-document footer, version metadata or registered company details. Written around older residential/child-focused wording and not clearly reset for the current 18+ supported accommodation model. No clear distinction between adult supported accommodation, Ofsted supported accommodation for 16-17 placements, and CQC-regulated personal care. Weak inspection evidence trail: the policy did not identify the matching register/form, review trigger and management oversight evidence. Needed current suicide prevention, safety planning and post-incident review controls.	Mapped into the new controlled document: Self-Harm and Suicide Prevention. Rewritten into role-owned, searchable, printable and annually reviewed portal content. Added purpose, practice standard, procedure, records/evidence, review trigger and escalation sections. Added footer branding, registered address, company number, version, approval date and review date.

Old document	What was wrong	What changed
36 DoL's Policy V6.docx	No consistent controlled-document footer, version metadata or registered company details. Written around older residential/child-focused wording and not clearly reset for the current 18+ supported accommodation model. No clear distinction between adult supported accommodation, Ofsted supported accommodation for 16-17 placements, and CQC-regulated personal care. Weak inspection evidence trail: the policy did not identify the matching register/form, review trigger and management oversight evidence.	Mapped into the new controlled document: Updated policy portal equivalent. Rewritten into role-owned, searchable, printable and annually reviewed portal content. Added purpose, practice standard, procedure, records/evidence, review trigger and escalation sections. Added footer branding, registered address, company number, version, approval date and review date.
37. CCTV policy V6.docx	No consistent controlled-document footer, version metadata or registered company details. Written around older residential/child-focused wording and not clearly reset for the current 18+ supported accommodation model. No clear distinction between adult supported accommodation, Ofsted supported accommodation for 16-17 placements, and CQC-regulated personal care. Weak inspection evidence trail: the policy did not identify the matching register/form, review trigger and management oversight evidence. Needed stronger privacy, retention, access request and lawful-basis controls.	Mapped into the new controlled document: CCTV and Privacy. Rewritten into role-owned, searchable, printable and annually reviewed portal content. Added purpose, practice standard, procedure, records/evidence, review trigger and escalation sections. Added footer branding, registered address, company number, version, approval date and review date.
38 Complaints policy V6.odt	No consistent controlled-document footer, version metadata or registered company details. Written around older residential/child-focused wording and not clearly reset for the current 18+ supported accommodation model. No clear distinction between adult supported accommodation, Ofsted supported accommodation for 16-17 placements, and CQC-regulated personal care. Weak inspection evidence trail: the policy did not identify the matching register/form, review trigger and management oversight evidence. Needed an accessible complaints pathway, response timescales, escalation and learning loop.	Mapped into the new controlled document: Complaints. Rewritten into role-owned, searchable, printable and annually reviewed portal content. Added purpose, practice standard, procedure, records/evidence, review trigger and escalation sections. Added footer branding, registered address, company number, version, approval date and review date.
4 COLLEGE EMPLOYMENT TRAINING POLICY V6.docx	No consistent controlled-document footer, version metadata or registered company details. Written around older residential/child-focused wording and not clearly reset for the current 18+ supported accommodation model. No clear distinction between adult supported accommodation, Ofsted supported accommodation for 16-17 placements, and CQC-regulated personal care. Weak inspection evidence trail: the policy did not identify the matching register/form, review trigger and management oversight evidence.	Mapped into the new controlled document: Education, Training and Employment. Rewritten into role-owned, searchable, printable and annually reviewed portal content. Added purpose, practice standard, procedure, records/evidence, review trigger and escalation sections. Added footer branding, registered address, company number, version, approval date and review date.

New Forms: What Was Added

New form	Added controls and fields
Referral and Compatibility Assessment	Admission, needs, risks, compatibility and placement decision record. Added structured fields for resident ID, property/room, date/time, completed by, people consulted, resident views, risk, immediate action, follow-up owner/due date, notifications and manager sign-off. Added completion standard, upload/print guidance, role ownership and controlled footer branding.
Move-In Induction Checklist	Resident induction, house rules, complaints, fire, safeguarding and support plan briefing. Added structured fields for resident ID, property/room, date/time, completed by, people consulted, resident views, risk, immediate action, follow-up owner/due date, notifications and manager sign-off. Added completion standard, upload/print guidance, role ownership and controlled footer branding.
Personal Support Plan	Goals, life skills, health, education, finance, safety and review actions. Added structured fields for resident ID, property/room, date/time, completed by, people consulted, resident views, risk, immediate action, follow-up owner/due date, notifications and manager sign-off. Added completion standard, upload/print guidance, role ownership and controlled footer branding.
Individual Risk Assessment	Dynamic risks, controls, positive-risk decisions and review history. Added structured fields for resident ID, property/room, date/time, completed by, people consulted, resident views, risk, immediate action, follow-up owner/due date, notifications and manager sign-off. Added completion standard, upload/print guidance, role ownership and controlled footer branding.
Safeguarding Concern Record	Concern, immediate action, referral, outcome and management oversight. Added structured fields for resident ID, property/room, date/time, completed by, people consulted, resident views, risk, immediate action, follow-up owner/due date, notifications and manager sign-off. Added completion standard, upload/print guidance, role ownership and controlled footer branding.
Incident and Accident Report	Incident details, actions, notifications, lessons learned and sign-off. Added structured fields for resident ID, property/room, date/time, completed by, people consulted, resident views, risk, immediate action, follow-up owner/due date, notifications and manager sign-off. Added completion standard, upload/print guidance, role ownership and controlled footer branding.
Missing Person Report and Return Conversation	Missing chronology, notifications, safe return and return conversation prompts. Added structured fields for resident ID, property/room, date/time, completed by, people consulted, resident views, risk, immediate action, follow-up owner/due date, notifications and manager sign-off. Added completion standard, upload/print guidance, role ownership and controlled footer branding.
Self-Harm Safety Plan	Triggers, early signs, coping actions, emergency contacts and professional support. Added structured fields for resident ID, property/room, date/time, completed by, people consulted, resident views, risk, immediate action, follow-up owner/due date, notifications and manager sign-off. Added completion standard, upload/print guidance, role ownership and controlled footer branding.
Key Work Session Record	Discussion, resident voice, actions, next session and progress evidence. Added structured fields for resident ID, property/room, date/time, completed by, people consulted, resident views, risk, immediate action, follow-up owner/due date, notifications and manager sign-off. Added completion standard, upload/print guidance, role ownership and controlled footer branding.
Room Access/Search Authorisation	Reason, consent, authority, witnesses, items found and aftercare. Added structured fields for resident ID, property/room, date/time, completed by, people consulted, resident views, risk, immediate action, follow-up owner/due date, notifications and manager sign-off. Added completion standard, upload/print guidance, role ownership and controlled footer branding.
Medication Support Record	Medicine support scope, consent, prompts, errors and review. Added structured fields for resident ID, property/room, date/time, completed by, people consulted, resident views, risk, immediate action, follow-up owner/due date, notifications and manager sign-off. Added completion standard, upload/print guidance, role ownership and controlled footer branding.
Maintenance Request and Completion Log	Repair request, priority, contractor, access, completion and resident update. Added structured fields for resident ID, property/room, date/time, completed by, people consulted, resident views, risk, immediate action, follow-up owner/due date, notifications and manager sign-off. Added completion standard, upload/print guidance, role ownership and controlled footer branding.

New form	Added controls and fields
Fire Drill and Alarm Test Record	Drills, weekly tests, defects, PEEPs and follow-up actions. Added structured fields for resident ID, property/room, date/time, completed by, people consulted, resident views, risk, immediate action, follow-up owner/due date, notifications and manager sign-off. Added completion standard, upload/print guidance, role ownership and controlled footer branding.
Health and Safety Audit	Premises inspection checklist and corrective action log. Added structured fields for resident ID, property/room, date/time, completed by, people consulted, resident views, risk, immediate action, follow-up owner/due date, notifications and manager sign-off. Added completion standard, upload/print guidance, role ownership and controlled footer branding.
Staff Supervision Record	Reflective supervision, performance, safeguarding, training and wellbeing. Added structured fields for resident ID, property/room, date/time, completed by, people consulted, resident views, risk, immediate action, follow-up owner/due date, notifications and manager sign-off. Added completion standard, upload/print guidance, role ownership and controlled footer branding.
Recruitment File Checklist	Safer recruitment evidence and pre-start approval. Added structured fields for resident ID, property/room, date/time, completed by, people consulted, resident views, risk, immediate action, follow-up owner/due date, notifications and manager sign-off. Added completion standard, upload/print guidance, role ownership and controlled footer branding.
Training Matrix	Mandatory and role-specific training tracker. Added structured fields for resident ID, property/room, date/time, completed by, people consulted, resident views, risk, immediate action, follow-up owner/due date, notifications and manager sign-off. Added completion standard, upload/print guidance, role ownership and controlled footer branding.
Complaint Record and Outcome Letter	Complaint receipt, investigation, response, appeal and learning. Added structured fields for resident ID, property/room, date/time, completed by, people consulted, resident views, risk, immediate action, follow-up owner/due date, notifications and manager sign-off. Added completion standard, upload/print guidance, role ownership and controlled footer branding.
Whistleblowing Report Log	Protected disclosure record, action, confidentiality and outcome. Added structured fields for resident ID, property/room, date/time, completed by, people consulted, resident views, risk, immediate action, follow-up owner/due date, notifications and manager sign-off. Added completion standard, upload/print guidance, role ownership and controlled footer branding.
Resident Money Transaction Record	Cash/property held, transactions, two-person checks and reconciliation. Added structured fields for resident ID, property/room, date/time, completed by, people consulted, resident views, risk, immediate action, follow-up owner/due date, notifications and manager sign-off. Added structured fields for resident ID, property/room, date/time, completed by, people consulted, resident views, risk, immediate action, follow-up owner/due date, notifications and manager sign-off. Added completion standard, upload/print guidance, role ownership and controlled footer branding.

Dashboard and Early Review Controls

A dashboard has been added to the website to show total controlled documents, annual review date, early review triggers and status buckets.

Early review must be triggered by serious incidents, safeguarding referrals, complaints, commissioner findings, property/fire safety issues, data breaches, staffing failures, finance irregularities, or legal/regulatory changes.

The dashboard is a static management control in this version. It gives the management team a central review list and trigger model; a future phase could connect it to a database, task reminders and incident reporting workflow.
