3. Our Support Model

Each young person is allocated a dedicated key worker who provides one-to-one support through planned engagement sessions. These sessions are tailored to the individual and help them build the skills and confidence needed for daily life and future independence. We support young people with budgeting, laundry, cooking, healthy living, routines, and other essential independence skills. Our team is also experienced in supporting challenging behaviour, using conflict resolution and solution-focused approaches to create a calm, structured environment.

4. Specialist Support & Safeguarding

Trinity Support Limited works with young people from a wide range of backgrounds and cultures, and we recognise the importance of inclusive, meaningful support. We provide a designated member of staff who focuses on events, activities, and cultural celebration. We also provide specialist mentoring and engagement support around gang affiliation and related risks, and we work alongside partner organisations that support young people affected by gangs. This allows us to offer practical, informed support that responds to complex needs.

Our staff team is trained and experienced in working with young people with complex needs. We provide waking night cover and day floating support to ensure help is available when needed. Safeguarding is central to everything we do, and we liaise with professionals daily to help make sure each young person receives the right support at the right time. We aim to maintain a consistent, well-managed service that gives reassurance to both the young person and the placing authority.
